Case Study: Medres – Dynamics 365 Sales Quote Automation

Project Overview

The Medres project focuses on optimizing the sales lifecycle in Dynamics 365 Sales by improving quote creation, sales process tracking, and automation.

Problem Statement

Manual quote creation, lack of structured sales stages, missing validations, and poor visibility of RFQ to Quote flow caused delays and errors.

Objectives

- Automate quote creation
- Improve sales process flow
- Ensure data validation
- Enable end-to-end tracking

Solution

Implemented Business Process Flow, Power Automate for quote generation, and Dataverse for structured data management.

Technologies

Dynamics 365 Sales, Power Automate, Power Apps, Microsoft Dataverse

Results

- Faster quote generation
- Improved accuracy
- Better tracking
- Reduced manual effort

Conclusion

The solution improved efficiency, reduced errors, and provided a scalable sales process.
