Global Payroll Automation

Overview

I developed a centralized payroll management solution to replace Excel-based tracking across multiple countries, improving visibility, accuracy, and control.

Challenges I Solved

- Replaced Excel-based payroll tracking
- Removed lack of standardization
- Introduced approval accountability
- Improved workflow visibility
- Reduced risk of data inconsistency

Solution Delivered

- Interactive payroll input interface
- Country-based navigation
- Monthly workflow checklist
- Approval workflow with email notifications
- Audit trail tracking

Key Highlights

- Multi-country support
- Visual dashboards
- Role-based access
- Compliance tracking

Results & Impact

- Improved payroll visibility
- Reduced errors
- Faster payroll cycles
- Centralized system
